Library Materials For Secondary Schools

This is the first listing of books which have been recommended for a future edition of the Basic Book List for Secondary Schools by a Selection Committee of school librarians appointed by the Department. The intention is to distribute regularly lists of all the submissions of the Selection Committee.

Not all of these books recommended will appear in future supplements or revised editions of the Basic Book List. A Revising Committee for the Basic Book List has been appointed to select titles for the Basic Book List from among these submissions of the Selection Committee. However, the books recommended by the thirty members of Selection Committee have been used in their school libraries and are, in their opinion, worthy of consideration as basic books.

The Dewey classification, the Sears Subject Headings, and the grade level indication, are suggested by the librarian. These are intended to offer some guidance in selection, but they will not necessarily be the classification, the subject statements, and grade level used for the titles when they appear ultimately in the Basic Book List. The Revising Committee may choose to alter the designations for some titles before committing them to the Basic Book List.

It may be possible to include materials other than books in subsequent lists of Library Materials for Secondary Schools.
